

## LP-70A Multi-line Laser

### Features:

- Equipped with magnetic damping system for quick self-leveling.
- 4V3H1dot; Smart shape, easy to carry.
- Dustproof and waterproof IP54.
- 360° rotate, all angles fine adjustment .
- Built-in locking system to lock the compensator while in transportation to avoid vibration.
- Laser detector can be used for outdoors operation.
- 515nm Green line laser is also available.

### Specification:

Wave length:	635nm, 650nm(down point).
Working range:	up to 15m or up to 40m(with detector).
Self-leveling range:	± 3°.
Laser safety class:	Class 2M.
Vertical accuracy:	±1mm / 5m.
Horizontal accuracy:	±1mm / 5m.
Power:	4xAA size Alkaline batteries.
Continuous operating time:	≥ 6hours.
Weight:	1.7kg.
Operating temperature:	-10°C ~ 40°C.
Standard outfit:	main unit, laser glasses, target plate, manual & batteries.
Optional accessories:	LR60 detector with clamp, elevator tripod, charger & rechargeable batteries.

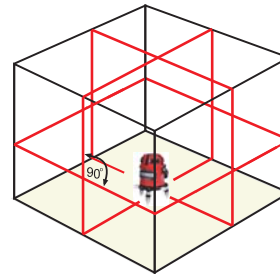

## ALP-90 Electronic Leveling Multi-line Laser

### Features:

- Equipped with electronic sensor system for quick self-leveling.
- 4V4H1dot; Smart shape, easy to carry.
- Dustproof and waterproof IP54.
- 360° rotate, all angles fine adjustment.
- Laser detector can be used for outdoors operation.
- 515nm Green line laser is also available.

### Specification:

Wave length:	635nm, 650nm(down point).
Working range:	up to 15m or up to 40m(with detector).
Self-leveling range:	± 3°.
Laser safety class:	Class 2M.
Vertical accuracy:	±1mm / 7m.
Horizontal accuracy:	±1mm / 7m.
Power:	4xAA size batteries or Ni-Mh Rechargeable batteries.
Continuous operating time:	≥ 5hours, all lasers are powered on.
Weight:	1.3kg.
Operating temperature:	-10°C ~ 40°C.
Standard outfit:	main unit, laser glasses, target plate, manual, batteries.
Optional accessories:	LR60 detector with clamp, elevator tripod, charger & rechargeable batteries, etc.
